Mint partners with Chance the Rapper for the “Sustaining Schools” concert series

CHICAGO – (April 12, 2017) Mint announced a partnership with Chance the Rapper for the semi-annual “Sustaining Schools” concert series, to benefit Chicago public schools. This is the fifth year that Mint has hosted the concert series. Each concert in the series features a different rapper who, in turn, selects a public school district of their choice to benefit from the event. The concert will take place on Friday, April 21 at Grant Park.

Leading up to the concert, people can follow Mint on social media and post with the hash tag #EDUEmpowerMINT for a chance to win free concert tickets. There will also be an opportunity for attendees to meet Chance in person at the event. Mint representatives will be stationed at the concert encouraging people to download the app, and every person that does so will have his or her name entered into a drawing to earn a meet and greet with Chance. Additionally, green glow sticks with Mint’s logo will be free for attendees to use at the concert.

“Both of my parents have government jobs, and both were adamant about me finishing high school and college”, said Chance the Rapper. “I’m thankful for the push that I got from them, and I’ll continue to push Chicago youth in the same direction, even if only financially.”

The first ticket link will be sent through the Mint app, so Mint users have the first opportunity to purchase tickets. After Mint users have been notified of ticket sales both Mint and Chance the Rapper will post the ticket link on their social media accounts.
